Float Trip 2012

July 9-13

This float takes place in a secluded, and very beautiful part of God's creation. The Eleven Point River is so named for eleven springs that feed an abundance of clear cool water into this magnificent canoeing stream.

The later part of the trip takes us to Boze Mill Spring where last year's campers found an abundance of cold and clear water. Thursday is tubing day and we take extra time at the small water fall. The last day we take the canoes over this water fall. It is great fun, great camping, and great food.
